

111. Frank [unclear]

UNITED STATES DEPARTMENT OF EDUCATION

THE SECRETARY

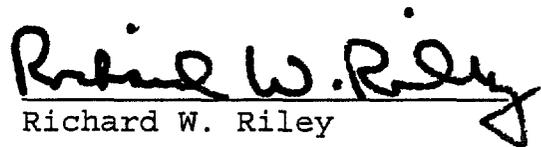

In the Matter of
Baton Rouge College

Docket No. 95-147-SP
Student Financial
Assistance Proceeding

Order of Remand

In its appeal, the College states that a Departmental official orally approved the disbursement of Title IV funds to students at the Metairie location prior to the Department's written approval of that location. This factual issue is not addressed in the decision of the Administrative Judge. In order to be able to consider fully the College's claims, I remand this matter to the tribunal below and instruct the Administrative Judge to determine what the Departmental official or officials told the College; when the statements, if any, were made; and what, if any, consequences there are for the asserted liability of the College.

So ordered this 26th day of November, 1996.

Richard W. Riley

Washington, D.C.
